DETAILED ACTION

Claim Objections

1. Claims 1-95 objected to because of the following informalities: The use of “it” is confusing and indefinite.. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-95 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regards to claims 1, 23, 52, 72, and their respective dependent claims, the clause starting with “detecting substantially simultaneously the wavelength components...” is confusing because the limitations contradict one another. The claims recite that there are “temporal portions” indicating that there is a difference in time, yet the claim also recites that the detection is done “simultaneously.”

With regards to claims 24 and 73, and their respective dependent claims, the recitation, “time intervals in a temporal sequence of time intervals, where the time interval in the sequence” is very confusing.
